

General information

The Landesbibliothek Coburg is a regional state library and is part of the Association of Bavarian Libraries. Its tasks include supplying the region with literature for research and study purposes as well as vocational education and training. In addition to outstanding historical book collections, the library offers up-to-date literature on all areas of knowledge.

(Total stock approximately 500.000 volumes).

Numerous electronic media such as e-books, e-journals, databases as well as digitized books from the library's own collections complete the book inventory.

The Landesbibliothek Coburg is a magazine library:

All media must be ordered via the online catalogue (OPAC).

The ordered media are usually provided within 15 minutes.

Historical volumes as well as certain media groups such as periodicals can be provided only after 1 to 2 days.
